ng and was taken to his

cus day crowd assembled in Dixon square and listened to selections by the Westerly Brass band. Then followed the parade of the two teams headed by the band to the Vose park. Here the Stars and Stripes and the championship pennant of 1909 were raised, while the band played The Star Spangled Banner. The ceremony was under the direction of Manager Dick Mitchell.

At the conclusion of the preliminary ceremonies, the teams were called to

ceremonies, the teams were called to play by Keyron Doyle, the umpire, who escorted Dr. John M. O'Connell, pres-ident of the league to the mound. The president pitched the first, a very low one, and the race was on for the league championship of 1810.

one, and the race was on for the league championship of 1910.

The twirler for Westerly was a husky chap from down Providence way, and he did very well, satisfied the Westerly fans, but could not he chassed as a phenom, as he did not shine forth unusually brilliant when compared with little Mike Sheehan of Norwich who did really good work for the White Rocks, and to a great extent the game could be classed as one of those so-called pitchers' battles with henors fairly well distributed. The teams were evenly matched, and but for the error of Staplin in left field, in muffing a high fly, the final score would probably not have been 5 to 2, in favor of Westerly, although perhaps the Westerly team is the faster and would have undoubtedly won the game, as they had to their credit at this time two earned runs. This unusual play of the White Rocks' left fielder was more than retrieved later on when he made two of the most difficult catches in the game, one on a side way and another on a forin when he made two of the most dif-led to catches in the game, one on a long side run and another on a for-ward run, clutching the ball within a ew inches of the ground. In fact, with the exception of the catching of thigh throw to Chase at first and a cuple of liners by Noves at third, here were no other plays out of the ordinary during the game. Taken as whole the game throughout was as whole the game throughout was as od as could be reasonably expected r an opener where either team has for an opener where either team has had little or no effective practice.

Now that the season has opened the slayers will warm up and hereafter there will be more ginger in the game than was displayed in the opening. A serious setback to players, and spectators too, at Saturday's game, was the clones of dust that were raised the clouds of dust that were raised from the diamond by the strong wind, which at times almost blinded the baters and catchers and covered those in the grand stand and along the first use line.

There was a large attendance at the There was a large attendance at the grame, but from start to finish there was that lack of excitement that characterizes the average of baseball. The score:

Westerly.

White Rock.

Antone Riva, Frank Santos, Manuel Victoria and Manuel Rives will leave here today (Monday) for Galveston, Texas, in search of employment. If they are not successful they will go

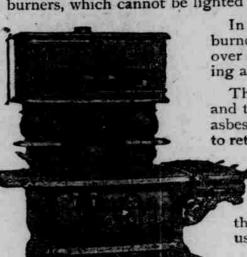

The Westerly board of trade is a consistent believer in signs as indicators of progress, for no seemer had Herbert Rodney Ellis completed the electric light sign hear the railway station when he was commissioned to place conspicuous signs at the entrance of the main avenues to Westerly. Signs sixteen by eight feet in size and painted in five colors have been placed in position. With a big hand pointing in the direction of the compact part of the town, the signs bear the words. "One mile to Westerly. Special inducements to New Indestries Cheap Power."

A special train of Pullman cars, a special train of Pullman cars, he decided to do the best he could.

Combination Coal and Gas

The Crawford Gas Ovens are safe. They are lighted in a new way; there is no dangerous pilot light and explosions are impossible. This improvement is patented and very important.

The Damper is automatically opened by opening oven door to light the burners, which cannot be lighted until the door is opened.

In these Gas Ovens there is an extra set of burners at the top for broiling; a great advantage over the ordinary gas oven, insuring better broiling and great convenience.

The Oven Bottoms and Racks are cast iron, and the outer walls are triple-an interlining of asbestos between two sheets of iron, which assists to retain the heat. The use of these

Gas Ovens does not interfere in any way with the operation of the coal range-both can be used at the same time. Double Oven above or Single Oven at end of range.
